TOKEN2049 SINGAPORE

01 | THE WORLD'S LARGEST CRYPTO EVENT

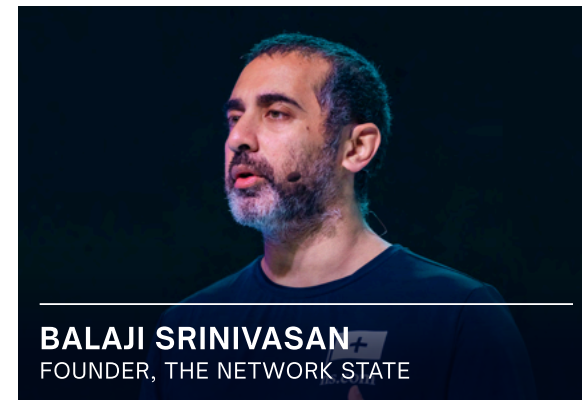

With over 25,000 attendees, 500+ exhibitors, and 1,000+ side events, TOKEN2049 Singapore (1–2 October 2025) marked the largest edition to date, transforming five full floors of Marina Bay Sands into a vibrant, pop-up city for the global crypto community. Across two electrifying days, TOKEN2049 reaffirmed its status as the definitive meeting point for the industry's most influential voices; where market leaders announce new ventures, institutions explore the frontier, and the conversations shaping global finance begin.

KEY SPEAKERS & HIGHLIGHTS

A sold-out crowd packed Marina Bay Sands for two days of main-stage keynotes, product launches, and thematic debates — punctuated by ziplines, DJs, and late-night sessions that carried conversations well beyond the conference halls.

The lineup spanned industry leaders and mainstream voices: World Liberty Financial's Donald Trump Jr. joined Vlad Tenev (Robinhood), Arthur Hayes (Maelstrom), Balaji Srinivasan, Tom Lee (Fundstrat), Richard Teng (Binance) and Star Xu (OKX), leading an agenda that brought together many of the world's most influential founders, investors, and policymakers.

From crypto's leading architects to cultural icons like Formula 1 drivers Lando Norris and Fernando Alonso, TOKEN2049 once again proved to be where finance, technology, and culture converge.

A man with a beard and short hair, wearing a grey t-shirt, is speaking on a stage. He is gesturing with his hands and holding a small object in his right hand. The background is dark with vertical blue light bars.

GLOBAL SPOTLIGHT ON TOKEN2049 SINGAPORE

From headline features to in-depth reporting, TOKEN2049 drew sustained attention across global and regional outlets, underscoring its position as the preeminent gathering for the digital asset economy.

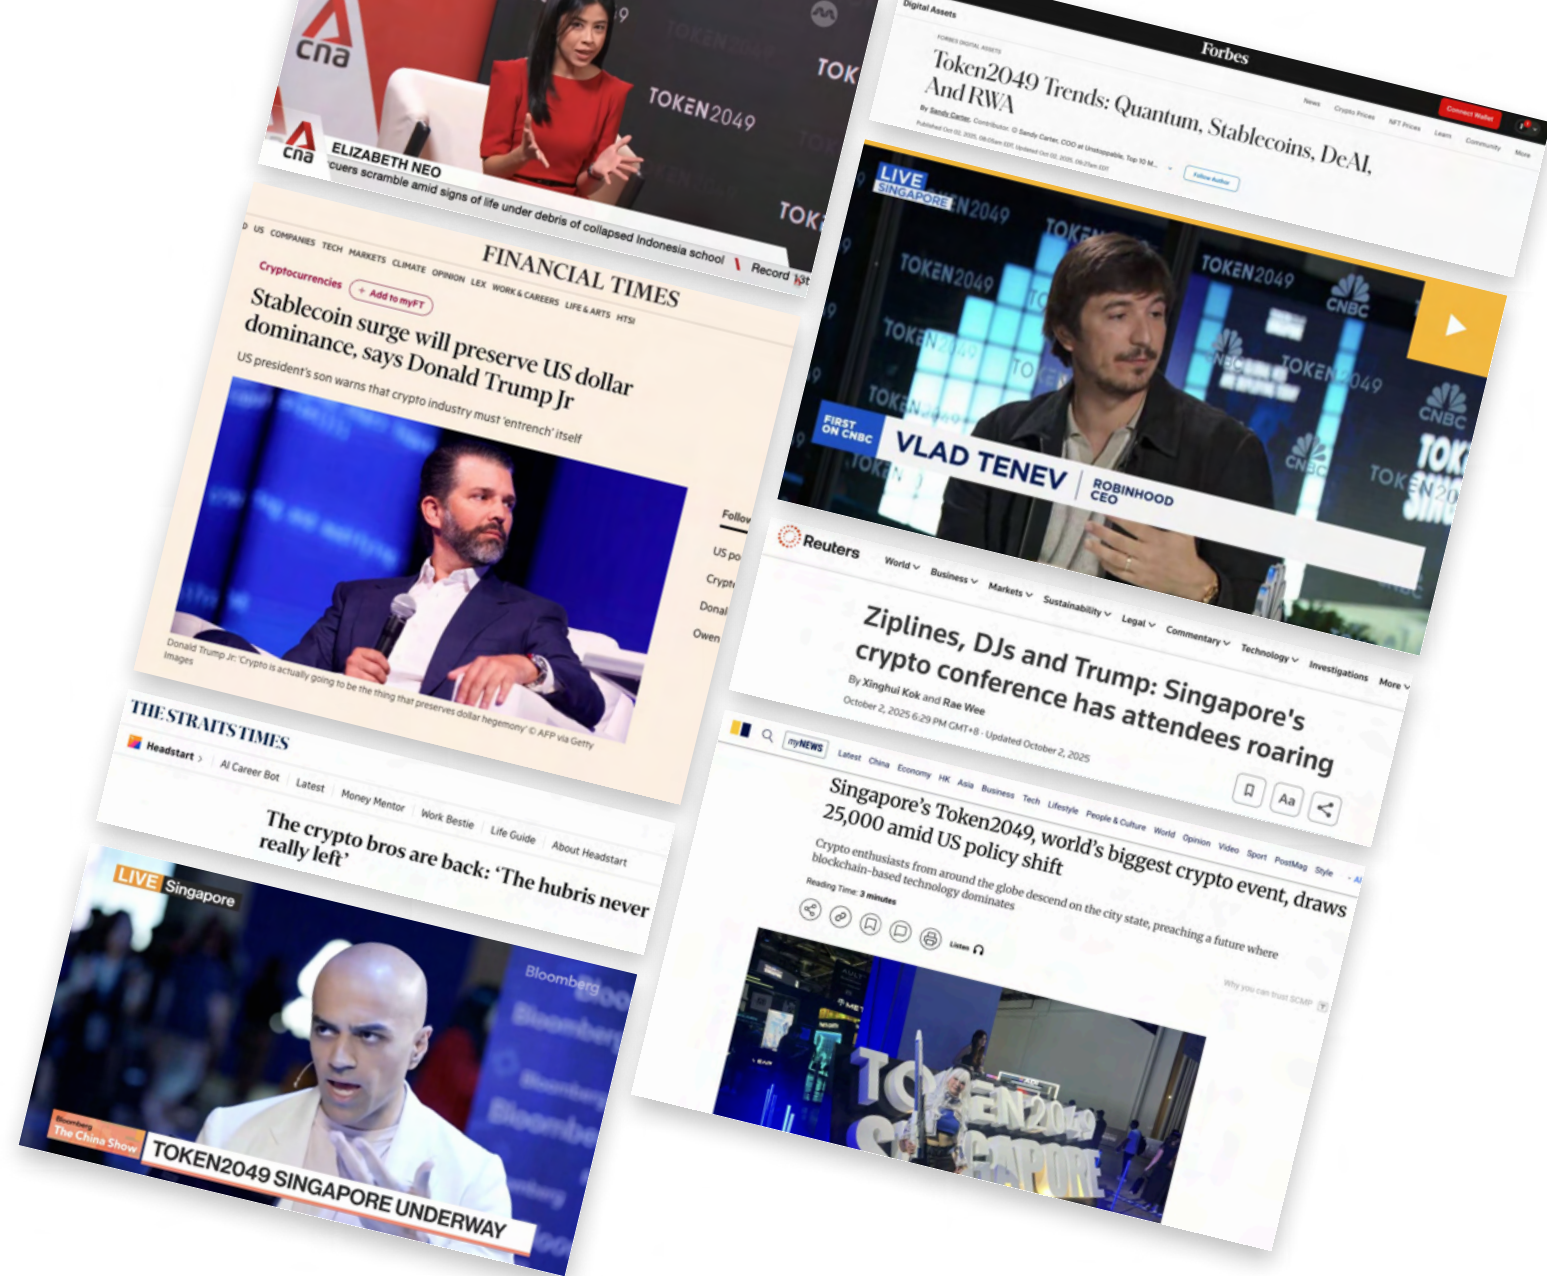

Coverage spanned top international titles and influential regional outlets across the US, Asia, Europe, and the Middle East, driving conversations before, during, and after the event. The result was a week of high-visibility storytelling that amplified industry narratives far beyond the venue.

TREND SPOTLIGHT

Singapore marked the start of the next crypto cycle: regulation tightening up, technology advancing, and real use cases moving from testnets to the market. World Liberty Financial teased a debit card, SGX prepared Bitcoin perps for institutions, BBVA connected to SGX FX for retail BTC/ETH, and XSGD went live on Coinbase.

On stage, the focus was clear: AI-driven chains, tokenized real-world assets, modular architectures, and on-chain identity shifting from concept to deployment.

CONVERSATION SNAPSHOT

INFRASTRUCTURE - 17 SESSIONS

Modular, scalable, and interoperable networks power the new financial internet.

AI X CRYPTO - 15 SESSIONS

Intelligent capital and autonomous agents reshape finance.

INSTITUTIONAL CONVERGENCE - 12 SESSIONS

TradFi merges with DeFi as capital markets evolve on-chain.

TOKENIZED REAL-WORLD ASSETS (RWAs) - 10 SESSIONS

From bonds to art, everything that holds value moves on-chain.

CULTURE X CAPITAL - 7 SESSIONS

Luxury, sport, and collectibles define the human side of Web3.

FORECASTING THE NEXT DECADE OF CRYPTO

The week doubled as crypto's futurecast.

Arthur Hayes sketched a shock-scenario in Europe, arguing France could ultimately quit the euro – his “Bastille Day” thesis on how a systemic banking rupture might unfold.

Tom Lee cast 2025 as a macro turning point on par with 1971, with AI, blockchain, and tokenization shifting Wall Street's centre of gravity.

Vlad Tenev called tokenization a “freight train” set to eat finance, pushing all assets on-chain over the next decade. On the money front, speakers projected stablecoins to clear the \$1 trillion mark in the coming years – framing them as the infra for 24/7, bank-grade settlement.

Together, these forecasts underscored the role of TOKEN2049 as the industry's think tank, mapping where the next decade of crypto is headed.

THE CRYPTO FAST LANE

In the lead-up to the Singapore Grand Prix, TOKEN2049 Singapore brought the worlds of crypto and Formula 1 onto the same stage. Lando Norris, Fernando Alonso, and rising driver Oliver Bearman joined the event to discuss technology, precision, and performance, showcasing how innovation defines both speed on the track and transformation across digital finance.

Chelsea and England football legend John Terry also appeared, partnering with BingX to share his “playbook for greatness” (leadership, resilience, and high-performance culture) and how those lessons translate to building in Web3.

1-2 OCTOBER 2025 • MARINA BAY SANDS

NEXUS STARTUP COMPETITION

NEXUS is the world's largest crypto startup competition, bringing founders and investors together on a single stage.

From 500 applicants, ten finalists earned a spot to pitch at TOKEN2049 in front of Dragonfly, Maelstrom, Pantera, and thousands of industry leaders on the TOKEN2049 stage.

This year's winner, Cap, introduced a stablecoin protocol built on enforceable financial guarantees. With stablecoins now central to trading and payments — and under closer regulatory watch — Cap stood out for its focus on transparency, auditability, and reliable redemption. Its model replaces discretionary reserves with guarantees that can be verified on-chain and enforced off-chain, showing the kind of robustness and market readiness that impressed the judges.

TOM SCHMIDT (DRAGONFLY), AKSHAT VAIDYA
(MAELSTROM), NIHAL MAUNDER (PANTERA)

TOKEN2049 ORIGINS HACKATHON

Selected from over 1,000 applications, 160 top developers spent 36 hours turning concepts into prototypes at TOKEN2049 Singapore's inaugural hackathon.

With all-day catering, a fully stocked fridge, and a dedicated hackers' lounge, developers stayed in a flow state well into the night. Mentors on site, hands-on workshops, and idea exchanges among elite teams pushed projects to new heights.

After almost two days of non-stop hacking, teams shipped working products across payments, AI, and DeFi, culminating in live demos on the MEXC stage before investors and industry leaders.

The top project, PayperPlane, was a browser extension that enables crypto payments on any site that accepts cards.

Beyond the prizes, Origins sparked a new wave of products — proof of what's possible when builders converge.

AN ELEVATED EXPERIENCE

TOKEN2049 Singapore brought together the world's most revered luxury houses, each interpreting the future of capital through the lens of heritage, innovation, and design.

SPECIAL ACCESS PASS

Audemars Piguet hosted the Special Access Pass Evening at AP House Singapore—a setting rarely open to the public—while **Hedley's Studio** and **VistaJet** curated invitation-only lounges for TOKEN2049's most discerning guests.

At the event entrance, **McLaren** set the stage with a TOKEN2049-branded supercar. **Sotheby's** anchored the experience with a Collectors' Lounge — a serene, gallery-like environment showcasing three of the world's rarest and most valuable NFTs.

Wristcheck, the world's first certified pre-owned luxury watch platform to accept cryptocurrency, joined TOKEN2049 as both exhibitor and thought leader with a session on the Forum stage.

Together, these partnerships transform TOKEN2049 into a living showcase of modern luxury — where legacy brands and next-generation innovators stand side by side to define the future of value.

NETWORKING AT SCALE

Across every corridor, terrace, and lounge, TOKEN2049 Singapore became the meeting point for what's next. Founders, investors, and operators crossed paths over coffee, strategy huddles, and introductions that turned into real collaborations.

At the heart of the venue, Networking Villages made rapid-fire meetings easy, a high-density zone for efficient back-to-backs. When it was time to regroup, the Co-Working Space offered a quiet reset to unplug, reconnect, recharge, and power up devices before diving back in.

The TOKEN2049 Networking App tied it all together, helping attendees schedule meetings, connect with peers, and navigate the venue with ease.

A FESTIVAL OF EXPERIENCES

Spanning five floors of Marina Bay Sands, TOKEN2049 Singapore transformed the venue into a city-within-a-city built for connection, collaboration, and discovery.

Experiences were engineered to keep momentum high and conversations flowing: pickleball courts, a climbing wall, cold plunges and a 10-meter zipline sweeping across the exhibition floor, with live DJ sets providing a continuous backdrop of energy.

A curated food program balanced function and flavor with mushroom tea, protein shakes, fresh coconuts, and grain bowls, alongside a hawker fair featuring local classics like laksa and chicken rice, plus regional favorites like Peking duck.

The result: a high-density environment that brought together every layer of the global digital asset ecosystem under one roof.

HYPERBARIC OXYGEN CHAMBER

RECHARGING BETWEEN SESSIONS

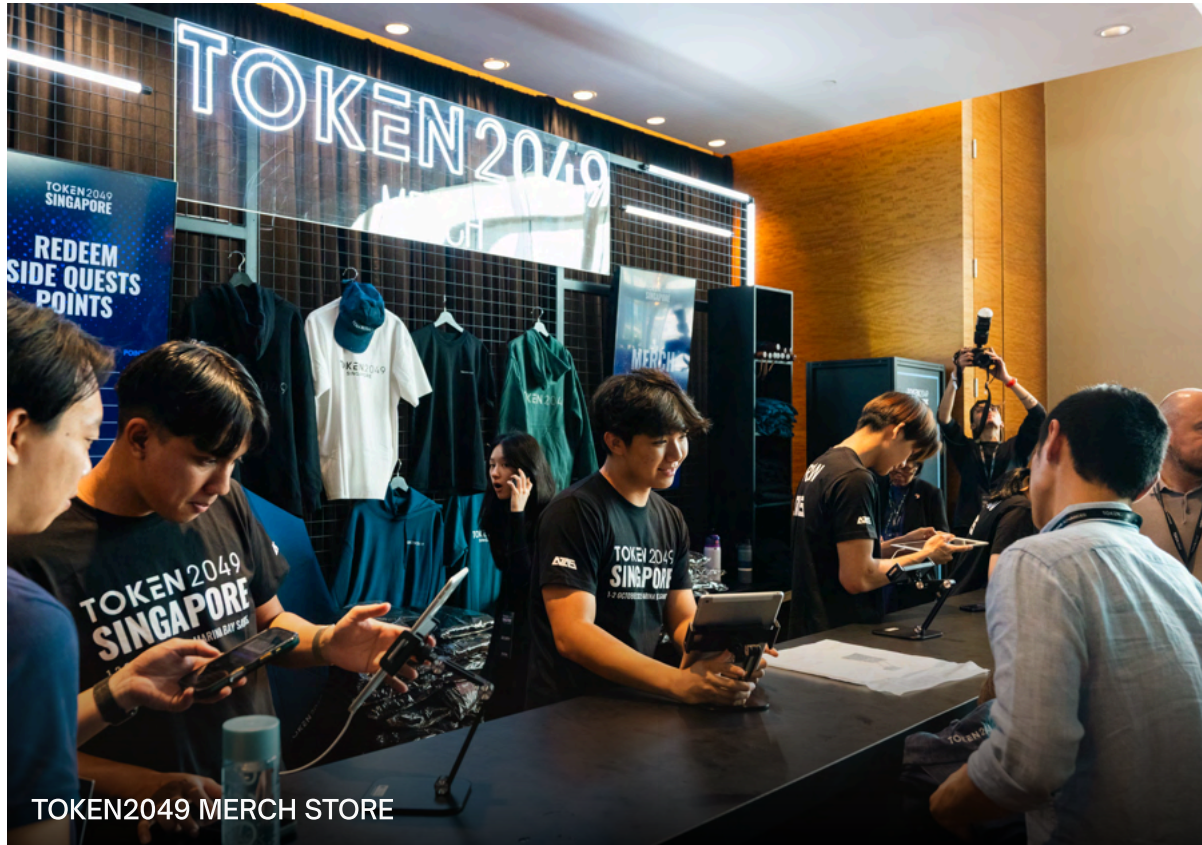

When energy dipped, the wellness zones delivered immediate reset.

Attendees had access to the Elyx Biohack Lounge which offered cryotherapy, hyperbaric oxygen chambers, and red-light therapy. Throughout the day, cold plunges, on-site massages, gong ceremonies, and breathwork sessions kept everyone sharp and focused.

Every wellness offering was calibrated for sustained high-performance networking. The holistic combination kept energy levels high and connections flowing across two hypercharged days.

SIDE EVENTS OVERVIEW

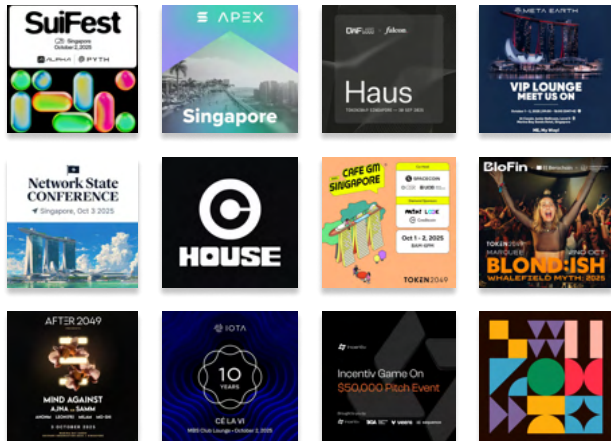

During TOKEN2049 Week (29 September - 5 October), the flagship conference at Marina Bay Sands set the anchor.

The largest of the side events gathered at Marina Bay Sands alongside the main conference, creating an unprecedented concentration of activity under one roof. Meanwhile, investor breakfasts, day-long pop-ups, private forums, and evening meetups filled the calendar across the city.

Throughout the week, the agenda coalesced around TOKEN2049 turning Singapore into the epicenter of crypto.

MANDARIN ORIENTAL

AFTER 2049

WHEN THE DAYTIME AGENDA WRAPPED, THE CITY TOOK OVER.

AFTER 2049 returned to the SkyPark Observation Deck on the 57th floor of Marina Bay Sands, transforming the skyline into an open-air arena of sound and light. Guests arrived to signature cocktails, curated bites, and on-site massages before the night lifted into full motion. Perched high above the city, the world's only rooftop party featuring 360° spatial audio and set the scene for the music and the crypto community to come together.

Headlined by acclaimed Italian duo Mind Against, supported by B2B maestros Ajna & Samm, with ANONM and Magic Room returning to command the decks, the lineup delivered a seamless journey from melodic intensity to deep club energy.

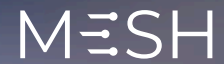

Every beat carried through the night air in Polygon Live's hemispherical 360° sound rig — the only build in Asia this year.

As Grand Prix weekend began, AFTER 2049 once again stood as Singapore's most anticipated celebration that closed the week on a monumental high.
